

INFS2605 Group Assignment Project Form

- It is your team's responsibility to ensure that your source code deliverable ships with a runnable JAR file. **Submissions that do not run (or indeed, do not compile) could result in a ZERO mark for the source code deliverable of the assignment.**
- Academic honesty is expected. An incomplete or deceptive project form (i.e., a form that very obviously claims more completed than actually completed) could result in 10% being deducted from your final mark for the assignment.

Feature	Attempted?	Completed?	Notes (if required)
(UM) Basic Requirements for User Management	YES	YES	
(DM) Basic Requirements for Data Management	YES	YES	
(JF) Basic Requirements for Journey and Flow	YES	YES	
(AF1) Invitation PDF	YES	YES	
(AF2) Event Runsheet Builder	YES	YES
